

A high-contrast, close-up photograph of several strawberries splashing in water, creating a dynamic and refreshing visual. The strawberries are bright red with green leaves, and the water droplets are frozen in mid-air, creating a sense of motion. The background is a deep, dark red, which makes the strawberries and the white text stand out prominently.

Hit them right in the feels, with print

Your website needs to look impressive. It has to be clear and consistent. You know that already.

But big brands don't just focus everything online. They combine their online presence with offline marketing.

Why? Print and direct mail is proven to build trust. It's perceived to be more credible. It plays with emotions.

And it appeals to multiple senses – touch and sight. There's nothing like it. And you can exploit that power, very cost-effectively.

Sometimes too much choice is daunting. That's why this guide features our top selling collections. Our most popular, best value ranges. With a few curious and quirky options sprinkled in, to titillate and add allure.

NEW

We've upgraded our production hub with new print tech. Our first-in-the-UK press sets a new standard for quality and hi-definition print.

You'll feel it with your eyes.

This year we switched all our matt and gloss laminated print to a new biodegradable laminate.

It looks like regular lamination and feels lovely. When the print reaches the end of its useful life, it composts. Within two years it's gone. Without leaving any contaminants in the soil.

A

The ceremony that starts something special

Isn't it weird? Most meetings start with the same ceremony. We present our business cards and we accept them from others. And that's the start of the relationship.

Everyone wants their relationships to go well. You might as well stack the cards in your favour. And make them look exceptional. We know just the way.

All our business cards are double sided as standard. Put a map on the back, or a photograph of your premises or products. Or even just add a simple accent colour.

Order cards frequently? Have more than ten employees? Let's setup a private online store for you. It's fast and it's easy. Ask for a demo.

When did you last write me a letter?

Many folk overlook the power of a simple posted letter. We all get less mail through our letterbox than we used to. And we all get more junk through our email inbox.

Yet letters are an effective direct mail piece. Either laser or inkjet print onto letterheads yourself. Or we can pre-print words for you.

But actually. Why not handwrite your marketing letter? Think about it. When did you last get a handwritten note?

Just write your letter once, we'll scan it and print it at the same time as the letterhead. It'll look authentic and impossible to ignore.

We can optionally fold letters in half or third, to save on postage.

See, you noticed!

Just how do you get their full attention?

Do you write proposals, send quotes or make estimates? Truth is, yours is probably not the only one a client gets.

So how do you increase the chances of winning the work? Following-up is really important of course. Quite often the fastest quote wins the day.

But there are other techniques. Send your proposal by email, but also post a hard copy. Stick it inside a folder. Why? It shows you're serious and credible.

There's some psychology going on too. The act of opening the envelope and unfolding is a bit of theatre.

It's not some tiny flyer. It's a huge double page spread of 'you'. And they're holding you with both hands. And you're blocking out other distractions. And now you have their full attention. Close the deal.

Let me tell you a story

It costs the same to post a book like this as it does to send a postcard. Waaaat? Really? Royal Mail charge the same rate up to 100g, as long as the piece is less than C5 size. You might as well make the most of their generosity.

Take time to explain. Let your story unfold. With a persuasive booklet or eyecatching catalogue.

It's easy to throw lots of messages at people. And overwhelm. And confuse.

Give them space.

Let them breathe.

Use full page photography, not tiny thumbnails. Say fewer words. Illustrate more. Be clear. Sell more.

HOW TO CREATE BOOKLETS

1 Choose a paper

Our stapled booklets start from 8 pages and go up to 64 pages. If you need more pages, ask for options.

Most people choose these papers for inside pages:

- 100gsm** silk art paper
- 100gsm** uncoated paper
- 150gsm** gloss art paper
- 160gsm** uncoated paper
- 170gsm** silk art paper

2 Choose a cover

Some people are happy with all pages in the booklet being the same paper. However, most opt to put a thicker cover on the outside.

There are loads of options available, but our best sellers are:

- 250gsm** gloss or matt laminated
- 280gsm** silk
- 300gsm** uncoated
- 350gsm** matt or gloss laminated
- 350gsm** starmarque spot gloss

3 Pimp your cover

Choose a 250gsm laminated cover and optionally add extra features to make your booklet even more useful. Ask for a price.

Leaflets, flyers, postcards... any size you want

You say pamphlet, we say leaflet. You call it a flyer, we call it a postcard. They're all just rectangles and squares. So we've organised them together, by size.

Whether you want to hand out things at an event, post them through mailboxes or create stunning direct mail pieces, we've got all the options covered. From thin paper to ultra thick board.

On the grids see which paper can be optionally laminated, embossed or die-cut. To add foil accents or spot gloss highlights. To crease. To fold.

Our most popular sizes and paper types are listed on the next few pages, starting from lightest to thickest. These are the best sellers. If you want a paper or size not listed, please ask.

Folded leaflets, brochures, price lists and menus

It makes sense to fold larger leaflets down to smaller sizes.

Breaking information down into smaller pages – or panels – makes it easier to digest. And brochures which are C5 or below also qualify for Royal Mail's lowest postage rate.

We've put together our most popular folding styles, along with our bestselling paper types.

But. And it's a big but. There are far too many sizes and styles to list on these couple of pages.

If you don't see the shape, size or fold style you'd like, please ask.

FOLDED LEAFLETS

Roll Fold
Makes three panels or more, which are rolled into one another. Available on A4 and bigger leaflets.

Z Fold
A bit like a concertina. Have three or more folds on pieces A4 or larger really good for odd sizes.

Half Fold
Simplest and most popular. Folded in half, either from the short edge or the long edge. Any size from A5 up.

Cross Fold
Folded in half, then half again, to make the leaflet a quarter its original size. Available on A4 and larger.

PAPER CHOICES

Our most popular papers and sizes are listed.

Please ask for other sizes, no matter how weird they may be.

We promise we won't judge you.

Shape me, crease me, perforate me

Any good at origami? Once you know it's possible to manipulate card with creases, cuts and perforations, your imagination can run riot.

Shape flyers to make them more interesting. Add creases to cards to make them easier to fold. Perforate leaflets to create easy-tear sections. Add hook shapes, holes or round corners.

It's usually really expensive to do all this stuff. Not with us. You share the costs with loads of other people, making it really affordable.

Tell us what you'd like and we'll help find a paper or board which is suitable. Not too thin, not too thick. Just right.

Keep it simple with direct mail

These new GDPR laws are making it much more difficult to use email marketing to win new business. As well as proving when someone opted in to receive your eshots, you need to record what you said you'd send them. And only send them that. Things could get even worse with ePrivacy laws still going through parliament.

Fortunately, it's much easier to send direct mail. As long as you give people a way to opt out of future mailings, sending printed catalogues or leaflets are classed as being within the 'legitimate interests' of your business.

That's why lots of folk are revisiting direct mail. Sure, sending a mailer costs more than sending an email (assuming you don't count fines from the ICO of course!) But business is always about return on investment. A targeted, posted piece which looks credible, might have a significantly higher conversion rate than junk email.

Ask for a free copy of our guide to GDPR.

Exhibiting has never been more affordable

Gone are the days of lugging around heavy cases. Goodbye to magnetic bars and crying-trying to hang graphics precisely. Say farewell to posters which don't last a second show.

There's many reasons people are choosing fabric displays.

They're lightweight – each comes with a carrycase. They're compact – fit them in the boot of a car. They're robust – use

them time and time again. They look great – a single continuous graphic in eye-popping High-definition. They're great value – they cost much less than you'd think.

Each display is a frame, which clips together. Then stretch a 'duvet' graphic over. Up in minutes, down in half that time.

If nobody sees your marketing, does it even exist?

Woah, mind blown. That's a bit deep for so late in the book. Sorry about that.

It's just that, well, what's the point of marketing which is ignored? Without a reaction, it's just money down the toilet.

Studies have shown it's better to send five things to 1,000 people than one thing to 5,000. Repetition is important. Repetition is important. (Sorry).

But so is making your marketing engaging and exciting.

We've got a few more tricks up our sleeves on these final pages.

In the end, it's down to the quality of design. The power of creative. The potency of the message. Let us help. We ain't just the printer. We're here to help you with ideas to grow your business. It's what we do.

SCRATCH CARDS

What's under the scratch panels?

Buy cards in multiples of 250. Get a set for each different prize or message you want your game to have. For instance, mostly losers and a few winners, then buy two sets. If you want more variety, perhaps with 10%, 20%, 30%, 40%, 50% off, order 5 sets. We'll help design your promotion.

e.g.

5,000 YOU LOSE Sorry Try Again	250 YOU WIN 1/2 Price Admission Before 11 PM	500 YOU WIN Free Admission Before 11pm	750 YOU WIN 3 Bottles For The Price Of Two	250 YOU WIN Free Bottle Of Bubbly
1,000 HALF PRICE GARLIC BREAD	1,000 FREE BOTTLE OF COLA	500 BUY ONE PIZZA GET ONE FREE	5,000 FREE UPGRADE FROM 8" TO 12" PIZZA	250 FREE 18" PIZZA

Nobody can resist a scratch card. Available in a variety of shapes and sizes, with a single or multiple latex scratch panels.

250 from **£49.50**
