EXHIBITIONS & DISPLAYS

Sometimes it's not just what you say, it's how you look when you're saying it.

Our Exhibit range gives you the tools to emphasise your message. For the first time, create enormous eye-catching displays... without the eye-watering price tag.

We've invested in the very latest, high-end, direct-to-fabric printing technology. Our UK-based production hub employs talented seamstresses and technicians, ready and skilled to turn your ideas into a wonderful fabric reality.

Seeing is believing. Drop by your neighbourhood Nettle studio to goggle at the samples and talk through options.

Make the most of your next exhibit.

Let's go!

DISPLAY STANDS

All our freestanding displays are highly portable. Clip together the frames, then pull over the fabric graphic.

Use at networking meetings, exhibitions or for in-store point-of-sale displays.

When it's over, dismantle in minutes and be on your way again – each comes with a carry case.

HOW FABRIC DISPLAYS WORK

Fabric Displays are made up of two main components — a strong, lightweight, tubular aluminium frame and a printed fabric cover.

The 260gsm Stretch fabric cover is printed on both sides as standard. Designed to fit snugly over the frame, it is secured at one edge with a zip fastening. The fabric cover is changeable and additional covers can be ordered separately.

These 'next generation' displays deliver maximum impact and completely eliminate the problem of visible join lines on larger displays.

Fabric Display frames utilise a simple 'click together' mechanism.

Each part is numbered for easy identification and quick assembly.

Stretch the fabric graphic over the frame and zip up.

All Fabric Display frames are supplied with a carry bag for easy transportation and storage.

Each stand
clicks together
in a few minutes
and then simply
stretch over the
printed fabric
graphic.

CURVED BACKDROPS

Ever had to build one of those frames with magnetic bars and panels of graphics? Not fun.

Our curved backdrop displays pop up in minutes. Each has a continuous graphic, so you don't need to worry about lining up panels – stretch your message across the whole stand.

They're optionally double sided too. And the magic of stretchy fabric is you can flip which side is front each time. One message at one event, flip, different message at the next.

TENSION FABRIC BOXES

Turn any corridor or communal area into a mini art gallery with beautiful fabric boxes.

Each is an aluminium frame, with thin channels. Attach a fabric graphic, which has silicon stitched to the edge, by stretching it across the frame. The graphic extends right to the edge of the frame, giving a large, uninterrupted, display area.

Wall Boxes can be screwed to a smooth wall, and **Lightboxes** are free standing.

GAZEBOS

This 'Marquis' gazebo has a fully printed canopy plus one half height wall and one full height wall – £1057

Printed gazebos are all the rage at farmer's markets, festivals and fairs. Our range now features new lower cost options, so you can make the most of your marketing budget.

In every case, the gazebo frame is the same. It's compact for storage, then pops up and locks into place.

You've got a choice of a plain black canopy, your name or logo printed on the front fascia or your branding fully printed on all sides and the top too. Each canopy is a water resistant material that'll keep you and your stock dry if it rains.

Clip on the number of sides you want. A full height wall hangs from the top, or you can choose half height walls, which come with a rail. Why not print a half height wall for the front too, to act as a cool branded counter?

Remember you can buy all the printed parts separately, so you can change your messages for each season or each event, and keep using the same frame. Neat!

Frame contracts to compact size.

Pull the legs outwards – the frame builds itself.

Pop the canopy on top.

Arrange the corners of the canopy.

DESIGN YOUR GAZEBO

STEP 1 CHOOSE YOUR SIZE

Our bestseller is 3m x 3m, bigger than typical domestic gazebos. Our most impressive is the double-width 6m edition and for those that like something in-between, the 4.5m edition.

Most people finish their gazebo with walls. The most popular combo is one full height back wall and two half height sides. Half height walls include a hanging rail – put on the front to hide a table if you're selling stuff over the counter.

FLAGS

Let's do a little experiment. On your way home tonight, count the number of flags you see. They're absolutely everywhere.

Why's that? Well for less than a hundred quid, you get a three metre high, fluttering, piece of eye catching marketing for your business. They are such great value, it's no wonder businesses are lining them up on their car park and forecourt and outside their front door.

All our flags are suitable for use indoors and outdoors. They're double-hemmed for durability, with a strong pole pocket which is designed to be used multiple times.

CREATE YOUR FLAG

IN THREE EASY STEPS

STEP 1 CHOOSE YOUR **STYLE**

Choose from a Teardrop, Quill or Empire shape, depending on your personal taste. See next page.

STEP 2 CHOOSE YOUR **MATERIAL**

Lowest cost option is a single sided flag material. In exposed environments, choose Vent material. Or go double-sided and your message can be seen the right way round on both sides.

STEP 3 CHOOSE YOUR **BASE**

Get the right base for the surface you want to display your flag. We've got options for indoors, for grass and outdoor pavements.

STEP 2

CHOOSE YOUR FLAG MATERIAL

SINGLE SIDED

The lowest cost option.

Your design will be printed
one side. If viewed from
behind, you'll see a mirror
image on the reverse.

DOUBLE SIDED

Have a different message
on each side of the flag, or
show the same message on
both sides – we put a
blackout divider in between
to prevent showthrough.

VENT WEAVE

For more exposed
environments, opt for a
single-sided vent material
which allows maximum air
to pass through.

STEP 3

ROLLER BANNERS

With printed fabric, the possibilities are endless. You can buy any of our fabrics, printed with your design and priced by the square metre. The minimum price is just one square metre. Each fabric comes in different widths, so check online for the maximum width and lengths.

The lowest cost option is unfinished raw fabric, great if you're making it into something else. Or opt for a hem, to make a neat edge. Other optional finishes include eyelets or silicon edges – add to your basket to see the cost.
