PRINT MAKES THE RIGHT IMPRESSION...

If you think print had been brushed aside by the email you would be wrong. True, for most businesses, sending out thousands of printed flyers to an unchecked database has had its day. But sending out beautifully designed and targeted mail to the right recipient will make a serious impression.

Putting an eye-catching and tactile piece of marketing collateral into the hand of your client is impossible to ignore. This stimulates emotions that we humans are hardwired to react to. That's why print should be a part of your marketing mix.

So, if you have been ignoring print for a while and your e-shots are just not generating the returns you want, now is the time to think again.

We think it's so important that we have dedicated our latest brochure **EXCLUSIVELY** to print. Why not dive into 46 pages of great ideas and start planning your next campaign. Colour It In can even mail it for you... ask for a quote.

Yet letters are an effective direct mail piece. Either laser or inkjet print onto letterheads yourself. Or we can pre-print words for you.

It won't go unnoticed. 70%* of consumers say receiving mail makes them feel more valued.

THE BETTER CHOICE

BIODEGRADABLE LAMINATED PRINT

Single-use plastics are no stranger to the eco-conscious. And we're always asking how we can do more to help. To be better.

So over three years ago we switched all of our matt and gloss laminated print to a new biodegradable laminate. That's every laminated business card, flyer, folder, booklet cover, appointment card and postcard.

It looks like regular lamination and feels lovely. When the print reaches the end of its useful life, it composts. Within two years it's gone. Without leaving any contaminants in the soil.

Choose from a wide range of paper types to begin. Then roll-fold, z-fold, half-fold, cross-fold, or smash out a combo. It's no origami, but we've got folding options for most sizes. Right up to a gargantuan A1 (perfect for maps, guides, and planners).

HIT THEM BETWEEN THE EYES!

Your website needs to look impressive. It has to be clear and consistent. You know that already. But big brands don't just focus everything online. They combine their online presence with offline marketing.

Why? Print and direct mail are proven to build trust. It's perceived to be more credible. It plays with emotions. Appeals to multiple senses. There's nothing like it. And you can exploit that power, very cost-effectively.

Eat, sleep, sell, repeat. Studies have shown it's better to send five things to 1,000 people than one thing to 5,000. Repetition is important. Repetition is important. (Sorry). But so is making your marketing engaging and exciting.

In the end, it's down to the quality of design. The power of creative. The potency of the message. Let us help. We ain't just a printer. We're here to help you with ideas to grow your business. It's what we do.

STICKERS

Are you "Sticker happy"? Well, you should be! Otherwise, you're not getting maximum exposure to your brand.

Get stickering at every opportunity you can - on the side of every box that leaves your warehouse, on the front of every envelope that leaves your office and on the forehead of every customer that leaves your store. (We've taken that too far, haven't we?)

We even have stickers for walls, windows, and walkways. Boats, buses and Bugatti Veyrons (or more likely, Peugeot Boxers).
